RESCUE STARTS HERE

## Information

Kennedale Fire Department has acquired a 5 acre industrial site to provide **hands-on training**. Kennedale Fire along with SERPA has teamed up with local vendors and manufactures to provide training on the latest saws and equipment available. This event will provide priceless training for any level firefighter with some of the areas top instructors present and representatives from the leading saw manufactures and extrication equipment to answer any questions. This event will demonstrate different uses with different equipment on metal buildings, Roll up doors, concrete slabs, 10 cars, school buses and roof props. There will also be a CAFS demonstration and saving your own drills. Also present will be area fire truck manufactures to showcase the latest demos.

Lunch will be provided (please RSVP) we will be serving BBQ sandwiches, water, and chips.

**Admission is FREE**

**Bunker gear, helmet/eye protection, and gloves required.**

**Hearing & Eye protection will be available**
